Mr. Barbarini,

Dear Sir,

Your letter rec'd this
am. and I am indeed sorry
that I could not get a representative
from your gallery even to look at the
picture of "Jaques" and I would
not have written the second, only
I was told that the trustees would
not let a picture of the importance
& quality of this one be sold without
an effort of some kind to obtain it
for their Museum. And knowing that
when an unusual chance like this comes
up that a gallery usually will make
an effort to improve their collection even
at some inconvenience. I am afraid
that they don't appreciate the chance to get

the largest and best Jacques
estant.

Yours Very truly

H. R. Leonard.

Gentlemen,

I wrote you some
time ago in reference to a
large and important painting by
Chas. E. Jacque about 8 ft 7 in
and I know that if you should
see it that it would interest you
as it would be a valuable addition
to any gallery. I should not write
again but there are a number of
people trying to negotiate for the
picture and I should like you to see
it before it leaves my gallery -

Hoping to hear from you

Dear Sir

I have just received
Your letter of the 10th & will endeavor to
make the intention of the plan a little
clear.

The Basement which is a full story
in the rear, is used in that
12 ft in portion for the Art School.
The clear but a large part is given
to the unpacking & storage
rooms, also heating & vent-
ilating machinery.

The 1st Floor, is a double gallery which
allows any individual gallery
to be shut off while being
rearranged without disturbing

2-

The general circulation, In the large galleries, which are lighted by side light (windows which go to the ceiling) the utmost width is thirty feet, the average being however twenty seven which we found was about as far as the strong light penetrated in Chicago on a dark smoky day.

They are twenty feet high.

The secondary galleries are twelve feet wide and are arranged for alcoves, the whole side of the gallery on the Court is one large window practically. The roof of the lecture hall being turtle backed allows the

light to come in over - The large gallery are for Casts & Statuary etc. & the smaller for Coins etc. Jewels etc.

The

2nd Story is lighted by skylights and is entirely for pictures the galleries vary in size and height some being 27' x 30' - 12 ft in height others 50' x 90' 19 ft to skylight & some higher but

3.

we do not believe in making a gallery as high as is often done.

The smaller galleries on this floor are lighted by side light on the Court and there is also a mezzanine above that on a level with the main gallery. The lower is for engravings and line drawings etc and the upper is used for school purposes.

In the rear looking out on the lake the Central semi circular bay is divided into pie shaped galleries for small paintings such as the Dutch matters etc

as

this allows the greatest amount of light and there is no reflection

the door taking up the wall opposite the window - Hoping that the above has thrown some additional light on the intention of the plans I remain

Dear Sir

A friend of mine passing
through Washington some time
ago saw a gentleman connected
with your institution who told
him that they would like to
get some paintings of David
Teniers the younger to add to their
collection.

On this account I write to say
I have two of these. A pair
representing a Flemish
Fete. They are about 2ft by 3ft

in excellent preservation. They were
purchased by my father in Paris at the
public sale of the personal effects of
Louis Phillipe with some other things
and were in his private collection
I have an old copper print of one
which describes the painting as then being
in the collection of the Comte de Choiseul
I wish to dispose of them as I have no
settled home and they have hung for the
last ten years in the bank at Saratoga

springs New York. If you care to go
any further in the matter I will furnish
all the information in my power and
if you so desire send the paintings
for your inspection. I have also there
a supposed Wouvermans a Stobbema
& a large Hausermann. I have all the
papers to prove the genuineness of the last
They are all in Saratoga.

A letter here will reach me any time
within a month Yours etc
